

Carol Hodgson

Front-End Web Developer Graduate

Front-end web development graduate working hard towards a career change. I have a great passion to build things from scratch and out of nothing. I love adventure, variety, uplifting and helping others. After recently graduating from Udacity front-end nano-degree program I am continuing to learn and grow my skill set and taking on personal projects like building my own crafting blog and building websites for three of my family members businesses.

WORK EXPERIENCE

Business Partner Travellers Rest Café

04/2011 – 03/2018

Middlesbrough

- Grew the business from the ground up for over 7 years with my business partner and gained a great reputation with the community and public.
- Lead and motivated a team of 5 by working together to deliver excellent customer service and satisfaction.
- Gained and maintained top-level food hygiene rating for over 7 years.
- Created my own unique recipes and delivered new and exciting homemade bakes and good eats to customers.

Barista Destinations

05/2008 – 04/2011

Saltburn by the sea

- Delivered excellent customer service for 7 years and established and maintained positive relationships with the community.
- Demonstrated leadership skills that help teams overreach customer service goals and optimize business workflows.

Photographic Lab Technician RGB Labs

04/2006 – 04/2008

Middlesbrough

- Met deadline targets developing and processing very large quantities of digital and negative film on timed services for both amateurs and professionals.
- Managed all processing chemistry and maintained professional lab machinery in excess of £100,000 and liaison with technical support at Fuji regarding troubleshooting.
- Trained and supervised 3 new team members in integral departments of the company.

SKILLS

JavaScript

HTML5

CSS3

Accessibility

jQuery

React.js

Sass

Git

GitHub

Object-Oriented JavaScript

Bootstrap

Jasmine

Responsive Web Design

Gulp

PERSONAL PROJECTS

Neighbourhood Map built with React (08/2018 – 08/2018)

- Developed a responsive, accessible one-page app using React that successfully fetches asynchronous API requests from Flickr API and uses Google Maps JavaScript API to help the user find amazing locations in my hometown.
- Source code: <https://github.com/FoxyStoat/neighbourhood-map>

Restaurant Reviews App (07/2018 – 07/2018)

- Converted a static webpage that had a lot of issues to a mobile-ready web application. My end result is a responsive design that is UI compatible with a range of display sizes, is offline first and accessible.
- Source Code: <https://github.com/FoxyStoat/restaurant-reviews-app>

Fallout Edition Memory Game (03/2018 – 03/2018)

- Created a browser-based card matching game that shuffles the cards randomly each time you play thanks to the Fisher-Yates shuffle algorithm, it helps boost the player's memory and is built with pure HTML, CSS and JavaScript to manipulate the DOM.
- Source Code: <https://github.com/FoxyStoat/memory-game>
Play the game: <https://foxystoat.github.io/memory-game/>

ACHIEVEMENTS

Recipient Grow with Google Developer Challenge Scholarship (11/2017 – 02/2018)

Won a 3 month Grow with Google Scholarship challenge. More than 200k people from 50 countries applied for but only 60k of them were selected. Upon completion, the top 10% was chosen to receive the unique opportunity to become certified developers.

Won a full 6 months Udacity Scholarship (02/2018 – 08/2018)

Upon successfully completing phase one for the grow with Google challenge, it led to being selected for phase 2. The scholarship lasted 6 months and I completed all 8 projects adding to my skill set.
