SKILLS

HTML5 · CSS3 · JavaScript · jQuery · React.js · Git · GitHub · Bootstrap · Object-Oriented JavaScript · Sass · Jasmine · Accessibility · HTML5 Canvas · Gulp · SQL · Photoshop · Responsive Web Design · SEO · Node JS

SELECTED PROJECTS

React - My Reads App   08/2018

- Leveraged React to support a dynamic user interface that interacts with an API server and client library resulting in a responsive book tracking app that allows users to select and categorise books into a virtual bookshelf.
- Source code: https://github.com/FoxyStoat/my-reads

Restaurant Reviews App   07/2018

- Converted a static webpage that had a lot of issues to a mobile-ready web application resulting in a responsive design that is UI compatible with a range of display sizes, offline first & highly accessible.
- Source Code: https://github.com/FoxyStoat/restaurantreviews-app

Fallout Edition Memory Game   03/2018

- Created a browser-based card matching game that shuffles the cards randomly each time you play thanks to the FisherYates shuffle algorithm, it helps boost the player's memory and is built with pure HTML, CSS and JavaScript to manipulate the DOM.
- Source Code: https://github.com/FoxyStoat/memory-game
- Play the game: https://foxystoat.github.io/memory-game

WORK EXPERIENCE

Business Partner   *04/2011 – 03/2018*
Travellers Rest Café   *Middlesbrough*

- Grew the business from the ground up for over 7 years with my business partner and gained a great reputation with the community and public.
- Led and motivated a team of 5 by working together to deliver excellent customer service and satisfaction.
- Gained and maintained top-level food hygiene rating for over 7 years.
- Created my own unique recipes and delivered new and exciting homemade bakes and good eats to customers.

Barista   *05/2008 – 04/2011*
Destinations   *Saltburn by the sea*

- Delivered excellent customer service for 7 years and established and maintained positive relationships with the community.
- Assisted customers with IT queries and offered my advice and skills which helped to push them forward in their UCPD coursework.

Photographic Lab Technician   *04/2006 – 04/2008*
RGB Labs   *Middlesbrough*

- Met deadline targets developing and processing very large quantities of digital and negative film on timed services for both amateurs and professionals.
- Managed all processing chemistry and maintained professional lab machinery in excess of £100, 000 and liaison with technical support at Fuji regarding troubleshooting.
- Trained and supervised 3 new team members in integral departments of the company.

ACHIEVEMENTS

Won Udacity Scholarship   *02/2018 – 08/2018*

- Upon successfully completing phase one and being in the 10% from the Grow with Google Developer Challenge it led to being selected for a full six months scholarship with Udacity.

Grow with Google Developer Challenge Scholarship Recipient   *11/2017 – 02/2018*

- More than 200k people from 50 countries applied but only 60k were selected. Upon completion, the top 10% was chosen to receive the unique opportunity to become certified developers.
